

National Cultural Liaison Officer Seminar (NCLOS)

Limassol Cyprus 22-25.3.12

The first ICC liaison officer's meeting was approved by the PEB, after a proposal from the chairman of ICC commission Julianna Papné Végső. This was a pilot project and because it was successful, similar meetings would be followed by the other commissions.

The National Cultural Liaison Officer Seminar helped the liaison officers to understand cultural activities that promoted within the IPA. It gave them additional knowledge and networking opportunities with their peers to develop more cultural activities in their Sections.

The ICC commission members arrived to Cyprus to participate in the meeting to advise the participants how to behave and work as ICC liaison officers. Unfortunately out of 63 sections only 18 attended. ICC hopes that the following meetings will have more participants and liaison officers of the international commissions will follow the advice and recommendations of the PEB and the chairmen of the respective commission for the benefit of the sections and the members.
